DELEGATES SIGN FIRST PROTOCOL

Decide on Plan for New Mexican Government.

TERMINATES LONG CONTEST

Agreement Provides for Recognition by the United States of Whatever Form of Government Is Later Agreed Upon—Protocol Eliminates Huerta and Is a Victory for American Contentions.

Niagara Falls, Ont., June 13.—Delegates from the United States and the Huerta government formally affixed their signatures in the presence of the mediating representatives of Argentina, Brazil and Chile to the first protocol of the series through which it is hoped to restore peace in Mexico.

The agreement reached regarding the manner of transferring the executive power from Huerta to the new provisional government stood the acid test of reduction to writing. It provides that:

A government is to be constituted in Mexico of a character to be provided later, which shall be recognized by the United States on a date to be fixed and which from that day forward shall exercise public functions until there shall be inaugurated a constitutional president.

This plank in the peace plan was reduced to the form of a protocol after more than three weeks of discussion, in the last three days of which so serious a disagreement had arisen that the success of the entire mediation program was threatened. The brief protocol was significant of two things:

It makes no mention of General Huerta as the provisional president and it omits the method of transfer which the Mexican delegates and mediators suggested and to which the United States strenuously objected on the ground that its retention would be tantamount to recognition of the existing regime.

As for the American delegates they consider the method of transfer a closed incident. All parties are now concentrating on the second part of the peace plan, which will form another protocol. It relates to the name of the provisional president and possibly will include his cabinet of four.

Though the protocol is composed of comparatively few words it is the embodiment of that for which the United States has been striving for more than a year—elimination of Huerta.

DANGER OF FAMINE EXISTS

Food Supplies Will Be Rushed to Vera Cruz.

Washington, June 13.—Fear of a real famine at Vera Cruz because of failure to receive food supplies owing to the breach in the railway and to the refusal of the Huerta government to permit the rails to be replaced is giving the war department no little concern.

Acting Secretary Breckenridge has concluded that the task of provisioning the city is beyond the ability of individuals and has plans for the shipment of food on government transports.

News of the threatened famine set the telegraph wires to work out of the department of commerce and Secretary Redfield received assurances that American merchants soon will have large supplies of food on the way to Vera Cruz to be sold at moderate prices. These shipments will go in free of duty, if officials here can arrange it.

WEATHER HELPS STEVENSON

Change in Temperature Benefits Former Vice President.

Chicago, June 13.—A change in the weather brought relief to Adlai E. Stevenson, former vice president of the United States, who is dangerously ill in a hospital here.

Physicians said that he had been able to take some nourishment for the first time in several days.

SUN CAUSES RAIL WRECK

Six Injured When Ten Tanks of Oil Explode.

Keota, Okla., June 13.—Ten loaded oil tank cars on the Midland Valley railroad were derailed here when heat warped the rails. The oil tanks caught fire and exploded.

Six railroad employees were slightly burned in their efforts to control the blaze.

BLEEDS TO DEATH DURING GOLF GAME.

East Hampton, L. I., June 13.—Samuel L. Isaacs, widely known as an artist, bled to death on the golf links of the Maidstone Country club here.

While playing an artery burst and although two physicians worked to save him he expired. He was fifty-nine years old.

SURPLUS LOWER THAN LAST YEAR

Secretary McAdoo Estimates Government Receipts.

SMALL INCOME TAX RETURNS

New Source of Revenue Falls Below Original Estimates, While Customs Houses Produce About Twenty-one Million Dollars More Than It Was Figured They Would.

Washington, June 13.—Estimates by Secretary McAdoo indicated that the government income for the fiscal year ending June 30 will exceed ordinary expenses by about \$30,000,000. That is about \$10,000,000 less than last year's surplus.

Income tax returns have fallen far below original estimates and failed to offset the expected decrease in tariff receipts under the new law, but the customs houses have turned in about \$21,000,000 more than it was figured they would.

Whatever surplus there is for the year will be absorbed by Panama canal payments, as it was last year.

Secretary McAdoo estimated that this year's ordinary receipts will aggregate \$733,000,000 and the total ordinary disbursements \$703,000,000. Total receipts for the last fiscal year were \$723,782,321, with ordinary disbursements of \$683,699,692.

In a statement Secretary McAdoo said:

"I have gone carefully over the last estimate of ordinary receipts and disbursements for the fiscal year ending June 30, 1914, and if all the assessments under the personal income tax are paid before June 30 the surplus probably will be \$30,000,000.

"Up to June 10 the treasury has received over \$276,999,000 from customs and for the year it probably will reach \$291,000,000, an excess of \$21,000,000 over the original estimate.

Internal Revenue Short.

"The ordinary internal revenue receipts probably will be about \$311,000,000, a decrease of about \$1,000,000 from the original estimate.

"This additional internal revenue receipts, comprising the corporation excise tax for two months of the year, the corporation and personal income tax for ten months of the year, probably will amount to about \$75,000,000.

"The total assessments to date against corporations is between \$43,000,000 and \$44,000,000—about \$2,400,000 in excess of the estimate. The personal income tax assessments to date are \$30,750,000, which is \$3,250,000 less than the estimate. The total assessment on corporations and individuals will be at least \$75,000,000.

"It should be remembered in this connection that the personal income under the law was for only ten months of the last calendar year.

"The miscellaneous receipts probably will be about \$56,000,000, a decrease of about \$3,000,000 below the estimate.

"The department is convinced that many liable to the income tax have failed to make returns and that many have made inaccurate returns. Active steps will be taken to discover all evasions of the law and a large additional amount of income tax undoubtedly will be collected from these delinquents."

MINE STRIKE CALLED OFF

Company Grants Practically All Demands of Workers.

Colliers, W. Va., June 13.—The strike of 400 miners of the West Virginia and Pittsburgh Coal company here was declared off following the announcement of leaders of the miners that they would waive the demand of recognition of the union.

The company is said to have granted the eight-hour day and the wage scale sought.

MILITANTS ARE UNDAUNTED

Descend on London Theaters and Harangue Audiences.

London, June 13.—Undaunted by the anger they have aroused among the populace over the attentions they are receiving at the hands of the police, who raided their latest refuge in Kensington, the militant suffragettes descended on nearly a dozen theaters in the West end of London.

In each case women attempted to make speeches and showered leaflets from balconies upon the audiences.

PEACE REIGNS IN ITALY

Demonstrations by Strikers Have Been Suppressed.

Rome, June 13.—Almost all of Italy is quiet following the rioting which has been in progress since the recent declaration of a general strike. Demonstrations have virtually ceased and railway communication, except in a few instances, is normal.

JUDGE A. G. DAYTON.

Federal Jurist Faces Impeachment Charges.

STARTS OVER LABOR WAR

Impeachment Charges Against Federal Judge Dayton.

Washington, June 13.—Impeachment charges were presented in the house against Alston G. Dayton, United States district judge for the Northern district of West Virginia, and without objection were referred to the judiciary committee for investigation.

Representative Neely of West Virginia presented the charges, accusing the jurist of "high crimes and misdemeanors."

The case grows out of the labor troubles in West Virginia. One of the allegations is that Judge Dayton used his office to the advantage of the coal operators by improperly issuing injunctions to prevent the miners from exercising their rights under the federal and state laws.

NEW MINISTRY HAS VERY BRIEF CAREER

French Government Beaten in Chamber of Deputies.

Paris, June 13.—Amid frantic applause by members of the left and the extreme left in the chamber of deputies the ministry of Alexandre Felix Ribot, formed last Thursday to succeed that of Gaston Doumergue, was defeated in a vote on its declaration of policy and then given a vote of lack of confidence.

Premier Ribot and his ministers immediately picked up their portfolios and left the chamber to present their resignations to President Poincare.

When the sitting of the chamber came to an end two motions were before it—one approving the application of the three years' military service law for the present, which was part of the premier's declaration of policy, and the other disapproving of the new cabinet on the ground that it was not representative of public opinion.

Following the defeat of the government it was rumored in the corridors of the chamber of deputies that M. Viviani would be requested again to try to form a new ministry.

WOMAN CANDIDATE CAN WED

Forsaking Maiden Name Does Not Prevent Her Qualifying.

Sacramento, Cal., June 13.—A woman whose name is changed by marriage in the interval between a nominating primary and the regular state election in California may make the campaign under her maiden name and qualify if elected, according to an opinion rendered by Attorney General Webb. He held that marriage does not affect the identity of the candidate.

PUSH BILL TO FREE THE PHILIPPINES

Possible That Measure Will Pass at This Session.

MAY OMIT THE TIME LIMIT.

Chairman Jones of Insular Committee, Anxious For Action, Prepares New Draft—Correspondents Returning From Mexico Tell of Disadvantages of War In Summer.

By ARTHUR W. DUNN.

Washington, June 13.—[Special.]—It is rather late in the session to begin legislation looking to the independence of the Philippines, but Chairman Jones of the insular committee has been much interested in that subject for several years and is anxious to have something done by congress.

The matter was revived when he took it up with the president, and it is possible that he will report a bill which might be passed at this session of the house, although it is doubtful. If it goes over to the short session it will surely be lost in the pressure of business in the senate.

An interesting feature of the proposed legislation is that instead of fixing a time for the independence of the Philippines which the former bills proposed the new measure is to be of a different character. When Jones put in his former bill he placed a limit of eight years for independence. Evidently the additional information that has been obtained from the present administration in the Philippines is to the effect that at present it would be unwise to definitely fix a time when the United States is to withdraw from the islands.

Hot Weather and War.

The more we hear about the hot weather in Mexico the less inclined we are to have a war in that country. Several of the correspondents who have returned from Vera Cruz have given information about the intense heat which prevails in that city, and some of them said they had to come back because the heat was too much for them. The reports of sickness among the soldiers and marines is also a discouraging feature of carrying on a war in Mexico at this season.

Reports from the fleet in Mexican waters are to the effect that while the officers and men do not feel the heat as do the men ashore, there is something enervating in the atmosphere and that the men tire quickly. It is particularly hard in the engine rooms and for the coal stokers, for the men have to suffer the intense heat in addition to the lack of vitality in the air. The weather is not propitious for carrying on war in the tropics.

Opposed the Leasing System.

Many senators from the west are bitterly opposed to the leasing system which is urged as a part of the conservation movement. Speaking on this subject one day in the senate, Senator Clark of Wyoming said, "I have contended that the western states should not become commonwealths of tenants under the dominion of absent landlords." That suggestion is made not only in regard to coal lands, oil lands, but also to large tracts of grazing lands. As to the coal and oil lands it is claimed that men who lease from the government cannot successfully compete with privately owned properties.

A Denial From Utah.

For some time there have been petitions, resolutions and memorials sent to both the house and senate asking for a constitutional amendment which would prohibit polygamy. One day Senator Sutherland of Utah, after the presentation of a memorial of this character, stated to the senate that polygamy was practically at an end. He made it so emphatic that it seemed to be convincing. That he was right seemed to be shown in the fact that the antipolygamists of both Utah and Idaho are much less active than they were a few years ago.

"In Revolution Again."

"What is the matter in the house today?" a newspaper man asked Congressman Chandler of New York. It was because the bells were ringing and employees of the house were bustling about trying to get members in to make a quorum.

"South Carolina is in revolution again," was the reply of the New York Progressive. "Ragsdale of South Carolina wanted to adjourn so that the members might attend the Confederate memorial, and upon being refused he began firing on Sumner and insisting that there shall be a quorum in the house one of the members that is not easily curbed or kept under discipline, which is the treatment accorded many new members."

Tiltman a Surprise.

For about two years everybody expected that announcement might come almost any day that Senator Tiltman of South Carolina had died. It seems, however, that the senator is getting better all the time. He is more constantly in attendance upon the sessions of the senate and gives his time to business more than at any time for three years past. Senator Tiltman claims that he has built himself up in a strict regimen of his diet and in taking exercise.

WORKER IMPORTANT FACTOR

Redfield Declares Manufacturers Are Neglecting Him.

Philadelphia, June 13.—That the manufacturers are neglecting the most important factor in the whole problem of production—the worker—was asserted by William C. Redfield, secretary of commerce, in an address read at a banquet which brought to a close the second annual convention of the National Association of Corporation Schools.

ADOPTED DAUGHTER SECURES \$375,000

Litigation Over Estate of Late William Ziegler Ends.

New York, June 13.—Lengthy litigation over the estate of the late William Ziegler has terminated with Miss Florence L. Brandt, his adopted daughter, receiving \$375,000 from her brother, William Ziegler, Jr., adopted son of the millionaire baking powder manufacturer, it was announced by young Ziegler's lawyers here.

Settlement came about in the following way, attorneys said:

"Mr. Ziegler was informed that shortly before his father's death his father had promised that if Mr. Ziegler's sister Florence graduated from the school she was attending in Davenport, Ia., with honor, he would give her the sum of \$250,000.

"Mr. Ziegler's sister did graduate with honor, but this occurred after the death of his father, and upon Mr. Ziegler receiving the information he gave the aforesaid sum of \$250,000 with interest, amounting in all to \$375,000, to his sister, and thereupon she dropped all the litigation which she had instituted against him."

Miss Brandt brought suit to annul the abrogation of her adoption by the late Mr. Ziegler, but the surrogate's court decided against her and was sustained by the court of appeals. In this suit Miss Brandt asked for a half interest in the \$15,000,000 estate.

West Point, N. Y., June 13.—June week at the United States military academy closed with the graduation of the first class. One hundred and seven new officers of the army received their diplomas from Colonel Townsley, the superintendent of the academy, and listened to a brief address by the secretary of war.

A delegation of Filipinos headed by Manuel Quezon, a Philippine delegate in congress, was here to witness the graduation of Cadet Vincente P. Lim, a Filipino boy, who is the first to enter the academy from that country. He will be commissioned in the scouts of the islands.

HOUSE ACCEPTS SENATE CHANGE

RELATIONS ARE STRAINED

War Between Greece and Turkey Is Probable.

London, June 13.—The Daily Telegraph's naval correspondent suggests that the real reason for the attitude of Greece against Turkey is a desire to secure mastery of the Aegean sea before the new Turkish dreadnoughts building in England are ready for sea.

The Daily Telegraph's Athens correspondent says the Greek minister to Constantinople has been instructed to demand the cessation of persecutions of Greeks in Asia Minor and the reinstatement in their homes and on their properties of 50,000 refugees who sought shelter from the Turks in Greece territory.

A guarantee also is demanded, according to the correspondent, that these refugees be not again molested.

Ottawa, Kan., June 13.—For two hours the faithful collie dog of W. C. Parks, a farmer living three and one-half miles northwest of Ottawa, fought off a half circle of 100 ravenous hogs and saved the life of Parks, who had become unconscious in a fall of eleven feet from a tree.

The cries of the dog brought aid a mile from the house just in time to rescue Parks.

BADGER MOOSE UNDECIDED

Question of Putting State Ticket in Field Left to Committee.

Milwaukee, June 13.—The Progressive party of Wisconsin failed to reach a decision on the question of placing a state ticket in the field next fall. State Chairman Norman L. Baker was empowered to appoint an executive committee of five members to consider the matter and make its report at a meeting to be called at a later date.

The full committee will act on the executive committee's report.

REDMOND RAPS VOLUNTEERS

Says Committee Does Not Support the Irish Party.

London, June 13.—John Redmond, Irish Nationalist leader, declared war on the provisional committee of the Nationalist volunteers, a majority of whom, he asserts, are not supporters of the Irish party.

Although the provisional committee at a meeting in Dublin, June 10, verbally welcomed Mr. Redmond's co-operation in the Irish volunteer movement, it followed this up with a call to volunteers in each county to elect a representative to serve on the committee.

This action the Irish leader interprets as a refusal of the committee to accept his proposal made June 9 that twenty-five representatives of the Irish party should be added to the committee in control.

Bill Repealing Free Canal Tolls Ready for President.

MAY SIGN MEASURE MONDAY

Favorable Action by the Chief Executive Is Looked for in a Day or Two. Representative Underwood Declares That Congress Should Never Have Made This "Unamerican Surrender."

Washington, June 13.—Only President Wilson's signature is necessary to repeal the clause of the Panama canal act exempting American coastwise shipping from tolls.

The long and bitter fight in congress came to an end when the house, after brief debate and without the formality of a conference, accepted by a vote of 216 to 71 the senate amendment specifically reserving all rights the United States may have under the Hay-Pauncefote treaty or otherwise.

The president is expected to sign the measure Monday. Representative Underwood, Democratic leader, although voting for the senate amendment, said that congress should never have made this "un-American surrender," and called the amendment "ineffective and negative."

Republican Leader Mann, who had vigorously opposed repeal, supported the amendment, declaring it left the entire question of the rights of this country to be determined in the future.

Representative Glass of Virginia attacked the Democratic leaders who opposed the measure.

"Mr. Speaker," he added, "I think you will search the political records of this country in vain to find such a spectacle as we have found here in this congress—the leaders of the Democratic party deserting their party and standing shoulder to shoulder with Republican leaders against a Democratic president."

Twenty Democrats voted against the motion to concur in the senate amendment. Thirty-seven Republicans and three Progressives joined the Democrats in support of the motion.

THE MOST IMPORTANT VOTE

The most important vote that will
be cast by the Republican voters of
the Sixth district and especially the
voters of Crow Wing county is the
one they will cast for the Republican
candidate for congress, on Tuesday
next.

The Sixth district is in the in-
cipient of its development. It has
more need of local attention than any
district in the state. The demand
for a strong, vigorous, energetic, cap-
able man who can accomplish things
is imperative. In H. J. Maxfield the
voters have such a candidate. Al-
though one of the youngest men in
years, he has during the short time
he has been before the public estab-
lished a reputation as a hustler and
accomplisher second to none.

As president of the County Attor-
ney's Association he secured import-
ant legislation beneficial to the oc-
cupants of those positions and in-
cidentally to their constituents.

As president of the Northern Minne-
sota Development Association he
developed that body from a nebulous
idea into a powerful organization
that has been an important factor in
the rapidly increasing prosperity of
Northern Minnesota.

As Commissioner of Immigration he
change the "Bureau" into one of the
great departments of the state and
made it an instrument of develop-
ment and wealth-creation for the
state. During Mr. Maxfield's 8 years
residence of the state, most of the
time as a private citizen he has ac-
complished more for the state and for
the Sixth district than has Mr. Lind-
bergh, clothed with the full panoply
of high official position.

What has Mr. Lindbergh accom-
plished, during his official service?
He projected a magazine that was to
revolutionize politics but it didn't
mag. and those who subscribed had
their money refunded. He has writ-
ten a 250 page book that no one has
read and those have read don't
understand although he has furnish-
ed a diagram of explanation and an-
other diagram explaining the dia-
gram. He has made sundry and
diverse speeches before audiences of
professional reformers bitterly de-
nouncing the party whose candidate
he claims to be. He has filed affi-
davits solemnly attesting to statements
that are not true and which he, and
everyone else knows are not true.
He has taken a political course of
mis- representation which had the

duplicate in business would have
set him to "playing checkers
with his nose" instead of gazing out
of magnificent congressional offices
on the lordly Potomac. He has posed
and posed and posed and drawn his
salary that's all. Not an individual,
firm, corporation, industry, locality,
party or society is one wit better for
his official service.

It is not a question of Maxfield vs
Lindbergh, it is a question of Man
vs Vacancy.

bodies, floats and displays of business houses, automobile, etc. The parade will form near the Northeast Brainerd fill and march through town and disband at Gregory park.

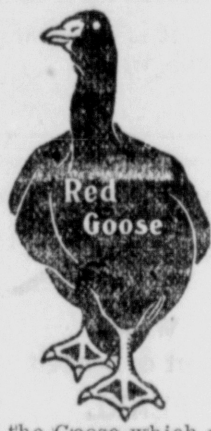

Immediately after the parade the speaking will take place in Gregory park.

Day fireworks, of the kind which made Brainerd famous as being the only city in this section of the northwest which had them last year, will be displayed at 1:30 in the afternoon at the square near the Northern Pacific railway depot. There will be all kinds of surprises for the little folks.

A program of sports will be held on Front street and the summer resorts around Brainerd can be depended on to send their best college athletes to compete with the flowered off as in former years.

Staples and Brainerd have developed into as great rivals as ever Little Falls and Brainerd were.

The night fireworks will pierce the circumambient blue at the Koering grounds at dusk. The new bridge fill and the surrounding edges of the ravine will provide seating places for thousands and will be another great spectacle for the children and the

KIDNAPPING CASE

George C. Payne, of Crosby, Found Guilty by a Jury in District Court Friday Evening

Following a three days' trial on a charge of kidnaping one Teodor Sjogren from Crosby at the time of last spring's miners' strike, a jury in Judge C. W. Stanton's session of the district court on Friday evening found George C. Payne guilty.

County Attorney G. S. Swanson prosecuted the case and Payne was defended by Attorneys Brown and Severance, of Crosby.

RIGHT TO SUE ON COVENANTS

Decision of Justice Taylor, of State Supreme Court, on Foley Hotel Case

LAST COVENANTEES' RIGHT

The Syllabus in Allis et al vs Thomas R. Foley, et al, of Aitkin, Given in Full

The order of the district court has been affirmed in a suit regarding what is known as the Foley hotel property, of Aitkin.

The point of law involved, taken up for the first time by the courts, and in which Judge W. S. McClenahan, of the district court, is sustained by the State Supreme court, is this:

After the time of redemption expires, no one has any interest in the property except the purchaser at the sale, even though they might have had a cause of action which arose prior to the time the redemption expired.

Allis sued Foley for \$15,000 damages because of failure of title and while the suit was pending the time for redemption ran out. Allis failed to redeem and lost his cause of action.

In the syllabus of the case designated as William H. Allis et al plaintiffs, William H. Allis, et al appellants vs Thomas R. Foley, et al, respondents, Justice Taylor says:

"The right to sue for breach of covenants which run with the land rests exclusively in the last covenantor, and an intermediate covenantor has no right of action thereon until he has indemnified such subsequent covenantor."

"Although the legal title does not vest in the purchaser at a mortgage foreclosure sale until the expiration of the period for redemption, yet, when it so vests, it relates back and takes effect as of the date of the mortgage; and, after it so vests, the rights of the purchaser against prior covenantors are the same as if the premises had been conveyed to him, at the date of the mortgage, by deed containing the same covenants contained in the mortgage."

"Where the grantee in a deed of warranty executed a first mortgage with full covenants to one party and a second mortgage to another, and thereafter conveyed the premises to a third subject to both mortgages, and the first mortgage was subsequently foreclosed, a cause of action against the original covenantor for breach of his covenant of warranty, accruing after the execution of the first mortgage, passed to the purchaser at the foreclosure sale, and, at the expiration of the period for redemption, became vested and absolute in him, or in his assignee, and subsequent grantees of the mortgage no longer had any interest therein."

"Where both such subsequent grantees of the mortgage and the assignee of the purchaser at the foreclosure sale were plaintiffs in action against the original covenantor for breach of his covenant of warranty, it was not error to dismiss the action as to all the plaintiffs except such assignee."

F. E. Ebner, of Mantor and Ebner, was attorney for Thomas R. Foley.

BASEBALL TOMORROW

Braierd to Play its Old Time Rivals, the Staples Nine at 3:30 Sunday Afternoon

A good game of ball is scheduled tomorrow, when Brainerd meets Staples at the Koering grounds at 3:30 Sunday afternoon.

News of interest to the fans is the announcement that Larson, who made such a hit in the league season as second baseman, has been signed for the summer for this position and will henceforth be a regular fixture on the Brainerd team.

Braierd expect to win Sunday. Staples also has an idea it will win. Accordingly the game will be one of the best seen here this season. The grounds are in fine shape and Brainerd will give a good account of itself on its home grounds.

STABBING AFFRAY

Nestor Ranta Receives Seven Slashes at the Hands of Charles Star in S. E. Brainerd

Quarreling with his companion, Charles Star, also known as Carl Tahtinen, Friday evening stabbed Nestor Ranta with a shoemaker's knife which he had picked up at his home in Southeast Brainerd, inflicting seven cuts, one of which, located in the back, was four inches long and two inches deep. None was vital.

Star was arrested by Mike Setula who pulled him away from Ranta. Dr. J. A. Thabes says Ranta will recover, the latter having been taken to St. Joseph's hospital.

AT THE CHAUTAUQUA

Frank J. Cannon on Mormonism—Gov. Robert B. Glenn's Patriotic Address

At the Chautauqua Friday afternoon Hon. Frank J. Cannon lectured on "The Mormon Kingdom of Today." Eighty years ago, said Mr. Cannon, there was one Mormon to 4,000,000 other people in the United States. Now the proportion is one Mormon to 60 other people.

Cannon was made a priest at 13 years of age because his father was rich and influential, and the highest man under Brigham Young. Mohammedanism has been decreasing in every country except the United States. The Mormon church leader of the present day, said Mr. Cannon, travels with five wives. Mormonism was the biggest money trust in the whole country. The income of the present head of the Mormon church was \$12,000,000 a year. Polygamy was now being practiced in eleven states of the Union, said Mr. Cannon.

Governor Robert B. Glenn, of North Carolina, spoke on the proper bringing up of boys and girls and emphasized the necessity of home training and vocational training. He arraigned modern fashions. He lauded temperance, virtue and industry. It was a good, old-fashioned rousing oration by a typical southern orator and after the lecture Governor Glenn held an informal reception in which every one in the large audience was glad to grasp his hand.

Today Schikret's Hungarian orchestra is a feature afternoon and evening. Hon. Elmer J. Burkett, of Nebraska, this afternoon spoke on "The New Woman and the Old Man."

Sunday's program is:

Afternoon—Swiss concert, by the Alpine Singers and Yodlers.

Lecture, "America as Seen by an Oriental," Julius Caesar Nayphe, a native Athenian appearing in Grecian costume.

Admission 35 cents.

Vesper service 4:00 P. M.

Evening—Swiss concert by the Alpine singers and yodlers.

Educational entertainment, portrayal of life in the South Seas, by the Rawels Company, by New Zealanders in native costume. Admission 35 cents.

I believe my wife thought about it and bought a soft felt hat, but it had not arrived when I set out for the house of commons. I received eight or ten top hats from good hearted people in the country afterward, and several people sent me orders on their tailors to get a suit of clothes."

As to my qualifications for Clerk of Court will state that during my spare time for a period of three years I was assisting in the law office of the late Jay Henry Long in various lines of work also reading law to get somewhat of a legal education. I read, write and speak three languages. Not a member of any organization except a labor union. The sole reason is this I have been in very poor health for a number of years, which of course bars me from becoming one of any fraternal or insurance society.

Both of my opponents are fairly well off and in good health. I would appreciate your vote as an assistance to me and my family.

Ancient Theatricals.

The "Agamemnon" of Aeschylus was first produced at Athens in 458 B. C. with the other plays of the great Orestean tetralogy. The official record of the year, which has been discovered, runs: "Tragedy: Chorus Xenocles of Aphidna; Poet, Aeschylus." So we see that the modern order of precedence—"So-and-so presents a new play by A. N. Other"—is ancient enough, for the chorus was merely a wealthy citizen who provided and paid for the chorus and a room for rehearsals, and nobody remembers Xenocles of Aphidna today. But there was one difference in ancient Athens. The leading actor's name did not appear in the record.—London Chronicle.

Pitt as a Talker.

Who set the fashion in the house of commons of long speeches? It was the elder Pitt, of whom Lord Brougham said: "He was prolix in the whole texture of his discourse, and he was certainly the first who introduced into our senate the practice, adopted in the American war by Mr. Burke and continued by others, of long speeches—speeches of two and three hours—by which oratory has gained little and business less." Pitt's ability amounted to a vice. He himself confessed that he did not like to take part in a debate when he had an important state secret on his mind, "for when once I am up everything that is in my mind must come out."—London Spectator.

London's Once Fashionable Church.

St. James', Piccadilly, once the most fashionable church in London, was built mainly at the expense of Henry Jermyn, the earl of St. Albans, who gave his name to neighboring Jermyn street and probably married Queen Henrietta Maria, the widow of Charles I. It is hideous externally, but the interior, for which alone Wren was really responsible, is considered one of the great architect's masterpieces. Few parishes have had so many distinguished rectors, among them being several archbishops and bishops and Dr. Samuel Clarke, the eccentric divine, who took his daily exercise by jumping over chairs and tables.—Westminster Gazette.

Irish Linen.

Though the Irish undoubtedly made linen before the time of James I., its manufacture was not carried on to a great extent until the time of Charles II. The Scots in Ulster first established linen manufactures during the reign of James, and from this beginning has the business of the present day developed.

Queer Things That Turn Up In the News

The appendix of Frank Davis of Mount Hope, N. Y., removed ten years ago, grew again and had to be cut out a second time to save his life.

Miss Dorothy Dickson of Chicago is out to break the world's tango record. She has tangoed, according to her meter, about 9,000 miles since the beginning of the year.

MARK TWAIN AS A LINGUIST.

His Grim Vow After He Firmly Decided to Learn French.

When Mark Twain was a young reporter, working on the San Francisco Call, he made up his mind to learn the French language. He did not want to go to the expense of a teacher, and so he bought a grammar and conversation book and set to work. Before breakfast he pored over the lessons; late in the evening he was at it again, and every available moment of the day he employed with equal assiduity.

He soon began to look about for opportunities to make use of his new accomplishment. Accordingly he began to eat at a French restaurant once a week.

One day as he and his roommate were coming out of the restaurant they found on the sidewalk just outside the door a Frenchman. He was asking first one passerby and then another the way to a certain street, but no one understood him. That was Mark's chance. The Frenchman looked at him with wistful eyes and began to talk. Mark listened attentively. Three or four times the stranger was compelled to repeat his question, then Mark seemed to catch his drift. But he had scarcely spoken half a dozen words in reply, when the Frenchman fell to the sidewalk in a dead faint.

The true cause of the stranger's fainting may never be known. Very likely he had been put out of this very restaurant because of his seedy appearance. But, whatever the cause, the joke was on Mark for once. Mark's roommate was careful enough of his friendship not to tell the incident at the office of the Morning Call, but he teased the rising humorist a good deal about it. When the fun had lasted long enough Mark set his jaw, and with unlimited determination written on his features announced, "I'll learn French if it kills every Frenchman in the country!"—Youth's Companion.

A Finisher.

"I thought you told me that Jones was a piano finisher," said the Old Fogey. "Why, I saw him driving a moving van today."

"Well?" interrogated the grouch.—Cincinnati Enquirer.

WELL DESERVED

The Praise That Comes From Thankful Brainerd People

One kidney remedy has known merit.

Brainerd people rely upon it. That remedy is Doan's Kidney Pills.

Brainerd testimony proves it reliable.

Mrs. Caroline Sundberg, 1504 E. Pine St., Brainerd, Minn., says: "I suffered for several years from backache. I was uncomfortable while I was doing my work and often I couldn't sleep well. I was distressed by dizzy spells and often after I stood awhile, my feet swelled and bloated. The doctor said I had kidney trouble, but failed to help me. Finally I was told about Doan's Kidney Pills, and I got a box at H. P. Dunn's Drug Store. After using them I didn't have any more pains in my back, felt stronger and was better able to do my work. I was so pleased with the benefit I had that I recommended Doan's Kidney Pills. I gladly confirm that endorsement now. The benefit I got has been permanent."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Sundberg had. Foster-Milburn Co., Props., Buffalo, N. Y.

Weather and Conscience.

Old Zeb Hawkins sat on a log near the bridge one Sunday morning, casting anxious glances at an uncertain sky now and then. His willow fish pole and a can of bait lay at his feet. Before he had quite decided on the weather the minister came by, having taken a short cut owing to the fear of a sudden shower. "Well, Brudder Zeb, is you gwine to ch'ch or is you gwine fishin'?" he asked.

"Ah dunno yet," said Zeb. "Ah'm jest a-wrastlin' wif ma conscience."
